 Cement       Wood  Other hard surface       Loose stone       Earth  
Condition:  Good  In need of repair       Included in bid
- 5) Landings at bottom of lift: 5'X5' min?       Yes       No  
 Cement       Wood  Other hard surface       Loose stone       Earth  
Condition:  Good  In need of repair       Included in bid
- 6) Walkway to car:  Cement       Wood  Other hard surface       Loose stone       Earth  
Condition:  Good  In need of repair       Included in bid
- 7) Availability of electrical service:  Adequate       Consumer to add       Vendor to add

### Equipment Specifications (must include)

List reason(s) why lift is better than using a ramp:

- Space too small for a ramp       Cost effective       Patient cannot maneuver large ramp

Basic model features:  See product sheet       Listed on back/attached

Additional items:  Already given       None       See product sheet       Listed on back/attached  
*(list each item separately and give reasons why needed)*

Weight limits: \_\_\_\_\_  See product sheet       Adequate for use       Potential problems exist

Maintenance requirements:  None       Included in bid       Consumer responsibility
