

WHAT PROGRAMS ARE AVAILABLE?

With a mission to empower children with disabilities to live life to the fullest, Variety the Children's Charity ensures that our most vulnerable kids are no longer left out, behind, or excluded.

By listening to those caring for the kids, Variety created three adaptive equipment programs, including:

1) Variety's My Bike® Program, which currently provides the new Rifton adaptive bike model (including a stationary stand and prescribed Rifton accessories) to children with disabilities, so they can experience the joy, freedom, and belonging that's created through riding a bike.

2) Variety's My Stroller® Program, which currently provides a Convoid EZ Rider adaptive stroller to eligible kids for "on-the-go" mobility or general safety / inclusion in the community, especially for kids living with elopement issues. With an adaptive stroller, families are no longer isolated, and it has an immediate impact on their lives.

- ⇒ **Parents tell us** that their child is a runner or bolter, and they don't have a way to keep them safe while out in the community—so they stay home. An adaptive stroller takes away that fear / anxiety.
- ⇒ **Parents also tell us** they must typically choose between getting a wheelchair or an alternative option. Though, a wheelchair is more necessary, an adaptive stroller allows for easier "on-the-go" mobility and participation in daily activities.
- ⇒ **Parents have explained** that with an adaptive stroller, kids and families are no longer isolated or left out, and it has an immediate impact.

3) Variety's My Voice® Program provides a communication device (i.e. a restricted iPad with one SLP prescribed communication app) to eligible children who are nonverbal (or have a communication disorder) to give them the ability to express their thoughts, feelings, wants, and needs 24/7.

- ⇒ The device is customized solely for communication, so all features are disabled or restricted by Variety to focus on the child's one prescribed communication app. — truly making it their voice.

"Our **My Voice®** Program is financed {in part} by a grant from the Commonwealth of Pennsylvania, Department of Community and Economic Development as well as generously funded by community donations."

SOME THINGS TO KNOW:

- We encourage families to apply for one, two, or all three pieces of equipment if your child can benefit!
- There's **NO CATCH** to our programs and all equipment is provided for **free**.
- After **4** years from receiving the first bike, and **3** years from receiving the first stroller or comm. device, eligible kids can re-apply for a second (**see pages 14,16-17**).
- All equipment must be presented within one year of approval, or a new application must be completed.

Please note, due to funding and our goal of reaching as many children as possible, **we are limited to only providing a maximum of 2 pieces of the same equipment per child** (for example, Jimmy can receive a maximum of 2 bikes, 2 strollers, and 2 communication devices from Variety).

My Bike & My Stroller applicants are required to attend a scheduled presentation with their parent or legal guardian to receive the custom medical equipment and conduct a final fitting for safety.

Ordering the equipment and scheduling these presentations can take time, so your patience is greatly appreciated.

For My Voice applicants, Variety will work with the child's Speech Language Pathologist to get the device ready and present it to the child safely at a predetermined location (therapy, school, etc...).
